

Statement for Equal Opportunities, Race and Diversity

At Grange Park Infant and Nursery School we foster attitudes, values and relationships which promote an understanding of, and respect for others. The school recognises that the society in which we live is enriched by the cultural diversity and faith of its citizens, and that all individuals have the right to equal access to the curriculum, resources, facilities and experiences.

Through our teaching we aim to present learning experiences that will enable children and adults to develop into individuals who are flexible, adaptable, confident and self disciplined.
