<b>Week 4</b>	Stage 5 book 28 j ge gi gy ge dge Le el al il	ran know can't again things new
<b>Week 5</b>	Stage 5 book 29 Ue u ew u_e eu	after wanted everyone our take I'll
<b>Week 6</b>	Stage 5 book 29 oo u_e o ou ough ue ew ui u	Revision up to end Phase 5
<b>Week 7</b>	Stage 5 book 29 oo u_e o ou ough ue ew ui u	Year 1 Common exception words

## HOMEWORK GUIDANCE

Year 1 Summer term 2<sup>nd</sup> half  
Yellow, Purple and Crimson class

Welcome back from the half term break! The following is guidance to help to reinforce what your child is learning at school. Hopefully this will give you an idea of how to make this fun and enjoyable for your child.

We hope these ideas are useful and fun. If you have any questions about the work to be covered during the next seven weeks please feel free to ask and we will be happy to help.

Kind regards,

*Mrs Ashraf, Ms. Virdee & Mrs Patel*

## Literacy

The children will be learning lots of information on facts about Endangered Animals, they will be putting all this into their own factual reports. Some research into Endangered animals at home can support this.

Children will be revisiting poetry, this time thinking about writing their own poems about summer! Lots of talk of what the children can see and experience in this season will inspire the children's ideas.

## Science

We will be learning about animals in our environment. The children will identify mini beasts and animals in the local environment. The children will be naming the different animals and mini beasts. We will also be learning about carnivores, omnivores and herbivores.

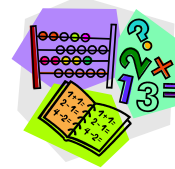

## ICT

Children will be using web search engines to collect pictures of different types of animals and then explore ways in which those pictures can be organised.

## Maths

▪ Don't forget to ensure that you support your child to solve simple addition and subtraction calculations, mentally.

▪ **Time** – Reading o'clock and half past times.

▪ **Measure** – Measuring the weight, length and capacity of a variety of objects.

**Addition and subtraction** – Solving addition and subtraction calculations with a number line or hundred square.

## History

We will be learning about the history of Space travel! Children will learn about the moon. And all about the first men in space and the expeditions.
