World Environment day 5th June 2020

World Environment Day is celebrated on 5 June every year. It reminds us that it is important to look after the Earth. The foods we eat, the air we breathe, the water we drink and the climate all come from nature. To care for ourselves we must care for nature. It's time to wake up. To take notice. To raise our voices.

Find out about how we can help to look after our environment:
